

**CULT  
CAFFÈ**

THE AUSTRIAN ROASTING HOUSE

# *One of the world's best roasting houses*

The CultCaffè Company has been roasting premium-quality coffee for the hotel industry, coffeeshops and restaurants since 2002.

At CultCaffè, we are really passionate about superior quality and the long-standing European tradition of excellent coffee. Our beans are roasted freshly in our manufacture on a daily basis. Located near the UNESCO World Cultural Heritage site Wachau, our production site is just at a stone's throw from a picturesque landscape abundant with flowering fruit trees, in the heart of Austria.

Buying only the very best of green coffee, CultCaffè can guarantee to maintain the highest quality standard. Our blends are roasted very slowly and gently in a computer-assisted rotary drum roasting machine and then cooled using fresh air.

This is how the coffee maintains its divine, full aroma and develops its full wholesomeness.

The art of roasting and our expert know-how help us ensure that every CultCaffèblend receives its harmonious, unequalled taste, well-rounded body and distinct aroma.

All our CultCaffè blends are perfectly composed and suitable for any type of coffee machine from classic filter coffee makers to fully automated bean-to-cup machines. And each blend is sublimely unique, making for an extraordinary taste experience.

## *Barista*

A stand-out espresso which has been fine-tuned over many years to bring you the best of both worlds: Aromatic Arabica beans from the very best cultivation areas of South and Central America and premium Robusta beans from India. Featuring a rich taste, fine nutty and chocolatey aroma, full body and velvety smooth crema.

Manufactured in Austria

## *Barista Nobile*

Featuring a fine blend of the best Arabica beans, Barista Nobile is the perfect choice for lovers of a slightly acidic note and fruity scents. This blend comes with a sophisticated aroma, delicate crema and a full-bodied taste. A very wholesome combination of the finest beans and free from irritants thanks to the prolonged roasting period, it allows for a perfect digestive experience without sacrificing caffeine levels.

## *Rainbow - Espresso Organic*

A superb blend of high quality, certified organic green beans from Nicaragua, Tanzania and small plantations in India. Delightful, fine-aromatic flavour.
